Do you want to make your event more  
profitable?

Tired of hauling that huge, costly  
generator around everywhere you go?

Did you know that you can save *thousands of dollars*  
while still providing all the necessary power for any  
special event?

Using your current power source, our engineers can increase your  
current output to four times the power you currently get with a  
generator at a fraction of the cost!

(1,200 amps three phase for less than \$1,000 a month.\*)

AND

You can keep our equipment on site, eliminating the need for an  
outside contractor.

\*Site Survey Required

## ***IN FACT..***

We are so confident that we can make the need for a generator  
obsolete that we will fly anywhere in the USA, be there for  
your 1st show &, if you are worried about it we will even bring  
a back-up.

Can your current contractor make that promise?

We have provided all of the necessary power for events like:  
The Pope In Central Park, The Theatre at Madison Square  
Garden, The Location shooting of "Spin City" as well as the films  
"A Perfect Murder" & "City By The Sea" just to name a few.
